

ANCIENT CANOEING REVIVED

Man against the sea as it was before the haole came will be demonstrated on October the 18th during Aloha week. The occasion will be a race from West Molokai to Waikiki beach in racing canoes manned by six men crews.

In 1939 Arthur E. "Toots" Minvielle suggested that such a race be held to end simultaneously with the Trans-Pacific Yacht Races. As the old Hawaiians' only means of communication was in canoes he proposed that our generation prove the feasibility of doing as they did, but in the nature of a race. Great publicity would result and Hawaii again would be news for such a unique event.

Finally after many years of promoting and proposing now under the auspices of Aloha Week Committee with the blessing of the Hawaii Visitors Bureau with the participation of canoe clubs the race will be held.

Canoes will be taken to Molokai by Young Brothers free of charge where interested Molokaians will transport them by truck to West Molokai. Paddlers will be greeted and entertained on the Friendly Island. Francis Ii Brown has put up a \$500 first prize, Aloha Week Hawaii a prize of \$300 for second and \$100 for third place.

The course covers dangerous Molokai Channel and some 36 miles of open sea. It is estimated that the race will take from 7 to 10 hours to finish depending on wind and weather. October was chosen mainly because the earlier months from January thru May are too rough and Aloha Week comes in October.

Every precaution will be taken to prevent any serious accidents. Powered cruisers will accompany the canoes with Doctors aboard. The Coast Guard will stand by. Alternate paddlers will be carried aboard accompanying craft in case of exhaustion of any paddlers. Life preservers will be carried in canoes as well as water and provisions.

The event will be covered by Life magazine and by News Reel photographers so that the event will be shown over the world.

Entries at press time were: Waikiki Surf in canoe Malia and Hui Kalia in

canoe Kaulani. Others planning to enter if canoes are found available are: Paddling group from Molokai and Outrigger Beach Services.

Possible canoes that might be used are the A in possession of Herb Dowsett, Princess, property of Charles Amalu and a canoe belonging to Doris Duke. The Outrigger Canoe Club directors have voted not to participate as a Club or use any Club property.

The race will end it is hoped in time to participate in "Hawaii Calls" national broadcast as it will start at 4:00 a.m. To the hardy adventurous paddlers and "Toots," Aloha and good paddling.

APPLICATIONS FOR MEMBERSHIP

Below is a list of prospective members. The Club welcomes all good responsible persons seeking membership. The Club however does not need anyone who may be of poor membership calibre. It is the duty of every member to report promptly to the chairman, Dr. Irving Blom, any objection they may have to the admission of any applicant. Such objections will be kept strictly private and accorded the fullest consideration.

JUNIORS

<i>Applicant</i>	<i>Sponsor</i>	<i>Second</i>

BUILDING & GROUNDS PLANS READY

The changes, additions and improvements of the locker rooms, roof, cocktail lounge and lobby are now in form and bids have been requested. It is planned that all the changes be made during the quieter fall months ready for our holidays. These improvements will add greatly to our facilities and give our members and guests a better Club.
