

SAILING

On Friday, June 10, at 12:45 p.m., the nuclear Submarine Kamehameha surfaced off Diamond Head. The OCC boats including Sunfish and canoes were on hand to greet and escort the USA's newest atomic submarine named after the Hawaiian Islands' former king. It was a historic sight, and one easily viewed from the OCC's beach. Be sure to come down and visit your club on these and many other exciting events.
