

# Paddlers Ready for the 2003 Regatta Season

By Genie Kincaid

Planning begins now for the 2003 regatta season with the Canoe Racing Committee getting itself organized for the summer. Members interested in getting involved with the canoe racing program should contact committee chair, Courtney Seto.

Various positions are open including OHCRA representative, equipment manager, head coach, and women's head coach.

Paddlers also have an opportunity to exercise their creativity by designing the paddlers' T-shirt for the regatta season. Here's a chance for all paddlers to shine artistically for a change. Submit T-shirt designs, including a slogan if so desired, to the Canoe Racing Committee no later than March 1. The winner will have his or her registration fee waived.

Please take notice that anyone who wishes to paddle for Outrigger this summer must have his or her membership established. This means each paddler must have his or her own membership number before beginning practice with any crews. OHCRA registration will begin in April so be sure to check future issues and the bulletin board in the Tunnel for further information.
